High Class DAHLIAS

Field Grown Roots

Originator of
"Iroquois Dahlias"

A SELECT LIST

IROQUOIS DAHLIA
GARDENS

JOHN TOTH

P. O. BOX 12, FAIRFIELD, CONN.

To My Dahlia Friends and Customers:

I am pleased to hand you this 1936 price list which is the result of my efforts to place before you the best values possible. They have proven their worth the past season by rugged growth and normal bloom. These varieties will give complete satisfaction if you dig deep, cultivate regularly and keep the insects under control.

I want you to be satisfied with my Dahlias. If at any time your purchase from me should not be as represented, I want to know it. My best efforts are used to keep my stock absolutely healthy and true to name and will be cheerfully replaced if they prove otherwise.

Sincerely yours,

IROQUOIS DAHLIA GARDENS,
P. O. Box 12, Fairfield, Conn.

JOIN THE AMERICAN DAHLIA SOCIETY

If you are not a member of this great Society you should join by all means. The dues are only \$2.00 the year, which entitles the members to the Bulletin free. The vast amount of useful information published in each issue of the Bulletin is worth many times \$2.00 to any Dahlia grower.

Mr. C. Louis Alling, West Haven, Conn., is Secretary.

Abbreviations, (F.D.) Formal Decorative—
(I.D.) Informal Decorative—(S.C.) Semi Cactus

My Own Introductions For The Year 1936

IROQUOIS PERFECTION (I.D.) 1936. — All persons that have seen and grown this wonderful dahlia, say it is one of the best. A rugged grower that has leathery leaves which insects do not touch. Height of plant four to six feet. Color, Mallow Purple. Plants will have six to eight blossoms at a time, flowers have good depth. With disbudding the flowers will attain ten or more inches in size. Flowers are held on strong stiff stems. If you show here is one dahlia that I can recommend to you. Stock limited. **Roots \$15.00**

IROQUOIS LAVENDER (I.D.) 1936—Here is a fine full blooming dahlia that has eight to ten blossoms at a time, that are held on long wiry stems, it has good depth. When disbudded it will make excellent exhibition blooms. Height, six feet. Color, a pleasing soft shade of white with light splashes of phlox pink. **Roots \$5.00**

General List

AGNE L. YOUNG (I.D.) — This plant is a very strong grower, that is insect resistant, flowers borne on long stems. Pleasing colors, red with gold tips. **Root \$1.00**

ALYCE MARIE GALVIN (F.D.) — A beautiful white with faint tones of cameo pink on outer petals. 11 inch flower awarded Certificate of Merit at Storrs's. A real grand dahlia. A free and prolific bloomer. No dahlia garden is complete without this one. **Root \$1.00**

ANNA BENEDICT (I.D.) (Benedict-Dahliadel) 1935 — This dahlia was certified at Storrs, Conn., 1934 with the highest score of all entries (86.6). The color is a rich deep garnet with black shadings and shadows at the centre of bloom. Its color will stand full sunshine and not fade. **Roots \$5.00**

ANDREA ERICSON (I.D.) (F.&M. 85,) 1931 — The easiest way to describe this dahlia is to call it a white Fort Monmouth. It is somewhat heavier in petal formation, but very pleasing in form. Held on excellent stems, and should be very successful in the white class on the show table. In hot weather this dahlia needs shading to be grown to exhibition perfection. **Roots \$1.00**

AMELIA EARHART (S.C.) (Cordes-Eastman), 1933 — This gorgeous dahlia was a consistent winner wherever shown, having two American Home Achievement Medals and many other prizes to its credit. Color is apricot buff with salmon tints shading to soft yellow at base of petals. One might picture it as an improved Edna Ferber of larger size, better stems, and with more gold and less rose shading. **Roots \$2.00**

BAGDAD (I.D.) — The color is a flaming scarlet red, long strong stems holding the blooms high above the bush, an enormous, as well as a prolific bloomer. This dahlia will not fade and highly recommended by us. **Roots 50c**

BUCKEYE KING (F.D.) (Peck) — A very large, clear blowing amber yellow. Stems are long, always good with all flowers facing. The bushes are very vigorous and all the same; after the crown flower many laterals are rapidly and simultaneously produced. Disbudding should be thorough to the base of each lateral. The flower is perfect formal type and was the sensation of our fields as well as at all shows. Its long keeping qualities will commend it to the grower of discrimination. **Roots \$1.00**

CHAMPOEG (F.D.) — The dahlia beautiful. This wonderfully beautiful dahlia is so very unusual in its color, it is without a competitor, the color being waxy canary yellow, yellow at center, shading to salmon pink, giving a color combination so beautiful and evenly distributed as though painted by hand. The pink deepens in color as the weather becomes cooler in the Fall. Backs of petals pale yellow, overcast with a veil of white. **Roots 75c**

CHARLES G. REED (F.D.) — Purple red sometimes described as petunia-red and a lively shade not far from crimson. In our gardens it was crimson, with a brush of dark maroon almost one-third the way back on the petals. It is unusually large and upright, on good stems. **Roots 75c**

CHIEF JUSTICE (I.D.) (Sampson, 1932)—A monster flower on cane-like stems that are long and hold the giant flowers erect. Color, soft chamois, with soft rose suffusion. A fine exhibition variety. **Roots \$1.00**

DR. HARRY HOWARD (F.D.) — A giant primrose yellow. Petals are pointed, yet the flower is really formal. A very deep flower. Roll of Honor. Plant this variety early. **Roots \$1.50**

DORCAS ANN (S.C.) (E.&M. Williams Dahliadel) 1935 — This dahlia is adapted to home decorations, general florists' use, as it is a beautiful rose pink shading to creamy white at center. A dahlia you will enjoy for its sheer beauty, rather than size. Bush, healthy and robust, stems always erect and flowering habits are ideal. Certified at Storrs, Conn., 1933. **Roots \$4.00**

DR. JOHN CARMAN (F.D.) (Dixon)—This is an exceptionally strong and vigorous grower. The flowers are large and almost a true American Beauty Rose in color. The stems are excellent and the foliage strong and tough. **Roots 50c**

DWIGHT W. MORROW (I.D.) (Dahliadel) — A gigantic red flower with heavy leathery foliage on a healthy growing plant. Winner of many prizes. Should be topped out once or twice and disbudded leaving terminal buds to bloom. **Roots \$1.00**

EAGLE ROCK FANTASY (I.D.) (Broomall-Success)—Giant flowers of clear mallow pink without shadings. It attains great size and depth. Winner of a Certificate of Merit and an Honor Roll Dahlia. Wins prizes consistently at all shows where it is entered. **Roots \$1.00**

EAGLE ROCK WONDER (S.C.) (Broomall-Success) — Color, mars-orange shading to orange-buff with tints of gold-pink and coral-red, with the general effect of orange-apricot. A free bloomer of good form and tremendous size. Worthy of any garden. **Roots 75c**

ELINOR M. RADELL (I.D.) (Felsing 85,) 1933 —The blooms, of good substance, are violet rose with a darker reverse and golden shadings toward base of petals. Certified at Storrs. It is truly outstanding because of its strong, rugged growth which withstands adverse growing conditions. It qualifies equally well in color, stem, form, and size and is prolific in its flowering habits. **Roots \$1.00**

EDWARD THOMAS BEDFORD (F.D.)—This is a very large deep purple, produced on ideal stems. It is a strong vigorous grower and makes a large spreading bush. **Roots 50c**

ELKRIDGE (I.D.) (Griffith)—Large, white flowers borne on perfect stems, a vigorous grower and the flowers are produced in great freedom. **Roots 50c**

F. J. MARCH (S.C.) (Bessie Boston)—This is one of the good ones from California. The color is a beautiful silvery lavender. It is a very free bloomer and the stems are very good. **Roots 75c**

FOREST FIRE (I.D.) (Dahliadel 1935) — In the bi-color classes this variety should have a wonderful future. Forest Fire has distinct lemon yellow for about one-third the length of the petals, then shaded to rich scarlet toward the tips enhanced by clear yellow petaloids. This variety is a rapid grower, good foliage, flowers on good stiff stems. Certified at Storrs, Conn., 1934, 85.5, and at East Lansing, Mich., 85. **Roots \$5.00**

GOLDEN ECLIPSE (F.D.) (Badetty) 1934 — A clear, golden yellow with salmon and flesh shadings at the center. First won as the best formal decorative in the Seedling Class in New York in 1932. Certified at Storrs, 1933, and a tall, vigorous grower with fine, long stems. Its remarkable keeping qualities assure its popularity as a commercial as well as an exhibition dahlia. **Roots \$1.50**

GOV. MORGAN F. LARSON (F.D.) (Hall) 1930—Color, clear, golden yellow with slight apricot blush on reverse. Very impressive. Formal decorative medium to tall growth, but sturdy plant. **Roots 50c**

HARRY MAYER (F.D.) (Reed) — A fine exhibition dahlia having size, depth, wonderful stem, full center and sturdy healthy bush growth. Its color is a beautiful silvery pink with a rose pink reverse. Very satisfactory. **Roots \$1.00**

IROQUOIS AUTUMN (I.D.) — A good growing plant of medium height with large flowers that stand up well when cut. A free bloomer, a good addition to any garden. Color various shades of autumn. **Roots \$4.00**

IROQUOIS ECLIPSE (F.D.) — This was outstanding variety in my gardens the past season. The plant is a profuse bloomer of large ten inch flowers of good depth, has good stems. Did well at the World's Fair Gardens against adverse conditions. The color, phlox pink with darker shade at the base of petals. A good exhibition flower. **Roots \$2.50**

IROQUOIS GIANT (I.D.)—The color bluish violet, a very prolific bloomer, there being six to eight stems, admired by all who saw it. This also did well at the World's Fair Garden. The bush is a strong robust grower with leathery foliage, petals will dry on flower before they will drop off and will keep in good condition for a week when cut. A beautiful dahlia for exhibition or commercial purposes. **Roots \$3.50**

IROQUOIS SUNBEAM (I.D.) Score 85, 1933 — Here is a dahlia that should be in every garden. It can be grown for exhibition or for commercial purposes. Color, orange buff with a great deal of flesh ochre. The plant is a strong grower and a very prolific bloomer, there being six to eight perfect blooms on the plant at all times. The flowers measure six to nine inches, depth two to five inches and height six feet. Will do well in most soils with very little care. **Roots \$3.00**

IROQUOIS SUNRISE (F.D.) — Score 85, 1933 — Here is an outstanding dahlia that received a certificate of merit at the trial gardens in 1933. Can be grown to a very large size. The plant is a strong grower with leathery foliage. A fine stiff stem with flowers facing the heavens. Height of plant 5 ft. 3 inches. The color is empire yellow with shades of apricot yellow, also base of petals salmon orange. There are two tones of orange around the center. **Roots \$7.50**

IVORY (F.D.) (Boston)—An immense self color of pure cream white, deeper at the center and just a shade lighter at the edges with a deeper tip. The petals are long, pointed and wave gracefully. The bush is medium tall and is a late bloomer. **Roots 50c**

JANE COWL (I.D.) (Downs) — An ideal dahlia, fairly tall with vigorous dark green leathery foliage; straight, strong stems holding monster blooms of glistening bronzy buff and salmon shades proudly

aloft with a beauty that stops you and makes you look again. **Roots 50c**

JEAN KEEFER (I.D.) — A beautiful rose pink, on good strong erect stems that can be cut up to 6 feet in length. The flowers average 7 inches in width and 4 inches in depth and continue so until the end of the season. The plant is a clean, tall and prolific bloomer. **Roots 50c**

JERSEY'S BEACON (F.D.) (Waite)—A universal favorite as an exhibition and garden flower; color is a Chinese scarlet with a paler reverse, giving it a two-toned effect. Flowers are large and globular in shape. The plant is a vigorous grower having splendid insect resisting foliage. **Roots 50c**

JERSEY BEAUTY (F.D.) (Waite) — This is undoubtedly the finest pink dahlia in existence. A glorious flower of eosine pink; pleases everybody either as a garden flower, a cut flower or for exhibition purposes. Tall vigorous grower, profuse bloomer with fine stems and foliage. It leads all other varieties in sales of individual dahlias in our garden. **Roots 50c**

JERSEY MELODY (S.C.) — The color of this marvelous dahlia is Tyrian rose, shading to silver at the tips with a silver reverse that gives it a two toned color and enhancing its striking beauty, which are held erect on stiff wiry stems. A very prolific bloomer. **Roots \$1.00**

JIM MOORE (I.D.) (Loller 85,)—A dahlia worthy of space in any one's garden. It is distinctive in form and color. The petals are long and regular, rolling back at tips, while the color is a primrose yellow shaded gold and suffused salmon. A good healthy grower. **Roots \$1.00**

KAWEAH (Giant I. Dec.) (Meussdorffer) — Size of this variety, however, is only one of the good qualities as it has splendid stems, form and substance, glorious color, and is a wonderful keeper. Color is hard to describe, a deep, clear, rose-cerise, center of petals shading to a rich, velvety cardinal toward the center of the flower, and when fully matured, shade lighter toward the tips of the petals, almost mauve or orchid. Blooms of 15 inches diameter, and very deep, are common, and these tremendous flowers are held perfectly erect on very long, extra strong, stiff stems. **Roots \$1.00**

KARL BONAWITZ (S.C.) (Dahliadel 86) — The entire make-up of this dahlia will appeal to the artistic. It has sufficient size to assert itself, while the form, color and keeping qualities make it graceful as well as useful. Color is a brilliant velvety carmine. This variety was featured by us in four of the big Eastern shows where it was greatly admired and was one of our best keepers. **Roots \$2.00**

KENTUCKY (I.D.) (Wiggington) — A sport of Jersey's Beauty with every good trait of the latter.

The color is a light salmon-orange, shading to grenadine orange, the base of petals being a light yellow. Petals are slightly twisted and are of splendid substance, making it an exceptionally fine cut flower. A prolific bloomer. **Roots 75c**

KEMP'S VIOLET WONDER (I.D.) (Kemp 85) — The predominating color of this fine dahlia is Naphthaline violet, with an undertone of royal purple, lightening to a faint bluish violet at the tips of petals. Deep flowers of perfect form. Stems are stiff, holding flowers a foot above the foliage. A truly outstanding variety, keeping well when cut. Plant is a prolific bloomer, strong-grower, not susceptible to sucking insects. **Roots 50c**

KING OF YELLOWS (I.D.) (Dr. Shattuck) — A very large flower of eight to ten inches with very narrow folding petals that are beautiful. It is really a new type. It has great depth and a very fine high center and a long stiff stem. A beautiful buttercup yellow. The foliage is perfect and it keeps well. **Roots \$3.50**

KING OF THE BLACKS (F.D.) (Kunzman) — Dahlia of giant size, very free blooming on long, stiff, natural stems without disbudding. Color is the darkest rich velvet red, almost black and holds color in any weather. Bush low and spreading, with flowers high above the bush. **Roots \$2.00**

LA FIESTA (I.D.) (Cordes-Eastman 85), 1933 — Deep sulphur yellow penciled coral red. There are interesting color variations in this dahlia. Out of the ordinary. At times the red blends with the yellow, giving almost a salmon pink effect. The lacy petals curl and twist, giving the flower the appearance of a chrysanthemum. Huge blooms are held well above the foliage on strong stems. A prize winner that is outstanding. **Roots \$2.00**

MAN-O-WAR (I.D.) — A fine garden variety on account of its splendid habits and one of the best keepers among the large varieties. Color; oxblood red, with plenty of glow and life. **Roots \$2.00**

MARY ELLEN (I.D.) — Another seedling of Mrs. I. DeVer Warner, with the same habits of growth, but the blooms of this one are not only much larger but also have a greater depth. Color is a lavender pink with considerably more pink than lavender. The flowers are held erect on the best of stems, well above the robust and prolific flowering bush. An ideal dahlia in every way, as it has the best of keeping qualities and is ideal for the table or exhibition. **Roots \$1.00**

MARY GERALDINE (F.D.) — An unusual and beautiful dahlia. The color of which is Rose Red. All the petals tipped white, 9 inch flower on very good stem, a very clean grower and free bloomer. This is one dahlia, for her unusual beauty should be in every garden. Scored 83 at Storr's trial ground. I recommend this one very highly. **Roots \$2.00**

MONMOUTH CHAMPION (F.D.) (Kemp) — This is a strong, vigorous grower producing extra large blooms of a brilliant orange flame. The stems are perfect and it is a splendid exhibition flower.

Roots 50c

MRS. ALFRED B. SEAL (F.D.) — Described by the originator as follows: Undoubtedly the largest and finest pure rich, glowing, old rose dahlia ever produced — nothing we have ever seen can even remotely approach it. Such an unusual coloring — the softest, richest shade of pure, glowing, old rose imaginable. The flowers are huge, measuring with Siskiyou, and of great depth and substance, and hold proudly erect above a tall, strong bush.

Roots 50c

MRS. L. L. HOOK (F.D.) — Here is a dahlia that is entirely different from the average run of dahlias, both in petal formation and plant growth. The color, blended shades of gorgeous purple, lighter on reverse. Beautiful large blooms with wide pointed petals. The bush is hardy, tall and positively insect resisting, never stunts. Scored 84 at Storr's trial grounds. A superb variety in every respect and we guarantee its performance.

Roots \$2.00

MURPHY'S MASTERPIECE (I.D.) (Murphy-Success 86)—The monster blooms of deep, dark red shading toward garnet are held erect on stiff stems. It is a stocky grower and in all a good dahlia. Comparing this variety with Dwight W. Morrow, it has better stems, but is not as bright a shade of red, nor does it stand the amount of sunshine Dwight Morrow does without burning.

Roots \$2.00

MYRA HOWARD (I.D.) (Glutzbeck-Dahliadel)—Glowing combination of saffron and gold with tints of salmon, the entire effect being ochraceous orange. Fine form and color. Wonderful plant and a thrifty grower, producing giant blooms on long rigid stems.

Roots \$1.00

OMAR KHAYYAM (F.D.) — This much admired giant. Color, a Chinese red at the base of petals and shading to a bright orange and tipped lighter, giving the huge blooms a wonderful soft color effect. The flowers which can easily be grown to over 10 inches in width are held erect facing sideways, well above the foliage on cane-like stems that can be cut from 4 to 6 feet in length. This variety has won many prizes and is good as a cut or exhibition flower.

Roots 50c

POTLATCH (I.D.) (Hulin) — Grenadine red with backs of petals pinard yellow and many petals splashed with it. Compact bush of five feet holding the large blooms on long stems. The blossoms will average 8 and 9 inches and face the audience. A long row of this attracted a lot of attention in our garden.

Roots \$1.00

PRES. FRANKLIN DELANO ROOSEVELT (F.D.) (Dr. Shattuck) — A Chinese red with fawn edge

and cream reverse, making the blooms very striking. The flowers are very large and deep, going eight inches without disbudding and holds its size all season. The blooms are held well above the foliage on good stiff stems. It is a profuse bloomer and should be disbudded and it can be grown then to eight canes without reducing the flowers to less than nine or ten inches. The foliage is perfect. Insects do not like it. Received certificate of merit at Storrs. **Roots \$2.00**

RIPPLES (I.D.) (Dr. Shattuck) — A very large flower of eight inches without disbudding. The rose pink colored blooms are held on very long stems way above the foliage. It is a great bloomer and has fine foliage. **Roots \$1.00**

ROBERT EMMET (I.D.) (Moroney Dahliadel) 1933—Scored 87 at Storrs; flower 9x4. A grand new velvety cardinal red dahlia of giant size and beauty. Good open grower with dark green insect resistant foliage and held on long stiff stems. One of the finest in the garden. (H.R.) **Roots \$2.00**

RUDY VALLEE (S.C.) (Broomall-Success) — In this variety we have one of the most beautiful dahlias ever offered. When the flowers begin to open they show chrome yellow at center, with a graduation of grenadine red as the flower expands, finally becoming solid grenadine orange red when in full bloom. The flowers are pleasing to look upon, and instantly catch and hold the attention of all who see them. Flowers, large to very large, full centered, and are held well above the clean-cut foliage on long, straight stems. Plant 5 to 6 feet high, with numerous strong laterals. Growth vigorous, which insures it against serious injury from insect attacks. **Roots 75c**

SATAN (S.C.) (Ballay)—Flaming red with a slight touch of gold at the center. The exquisite coloring is at once fascinating. The hornlike petals are so perfectly rolled and incurved, giving rare form and character to a flower of unusual brilliancy. The rugged, almost leafless stems, give the impression of being nearly as thick at the top as at the base. This variety has been a consistent winner at the shows. Plants medium to tall habit of growth. **Roots \$1.50**

SHAHRAZAD (I.D.) — A gorgeous deep pink that can not be fittingly described. Blooms are of great size and substance as well as depth. Stems straight, rigid and cane-like. This dahlia resembles Jane Cowl in many ways, a vigorous grower and well mentioned by all who have seen it. **Roots 50c**

SPOTLIGHT (I.D.) (Cottage Grove) — Another 1933 Honor Roll variety of most delightful color, sulphur yellow shading, lighter at the tips, with nearly white reverse. This is a large flower, averaging 10 to 12 inches, with a high full center, never coming open no matter how late the season. An

early, prolific bloomer producing its flowers on long stiff stems. Also winner of the American Home Achievement Medal in Seattle and Tacoma, Washington.

Roots \$2.00

STARLIGHT (S.C.) (Bessie Boston) — Pure unshaded gold, a color which always attracts. Flower is huge and there is no limit to the size to which it can be grown. Bushes grow tall and luxuriantly and flowers start early and continue with closed centers until frost. Form is excellent, and petals roll evenly until late in the season. The stem is stiff and strong and the flowers grow well out of the foliage. This variety will be found excellent for cutting as well as exhibiting and is always a delight in the garden.

Roots 50c

STAR OF BETHLEHEM (S.C.) (Nolet) — Pure white with numerous pointed petals. The dense, dark green foliage makes a beautiful plant and sets off the lovely, white blossoms, enhancing their waxy appearance.

Roots 50c

THE FIREMAN (I.D.) (Success) 1934 — A striking cardinal red with golden flushes and golden tips at center of flower. Certified at Storrs '33 and won the American Home Achievement Medal at Boston. This variety was claimed as flashy and striking in the New York Botanical Gardens and has been well recommended to us.

Roots \$2.00

THOMAS A. EDISON (F.D.) — This gorgeous rich royal purple decorative selected and named by permission of the famous electrical wizard, met with his complete approval when viewed at his West Orange estate. The staghorn petal formation, the dark green insect resisting foliage, the canestiff stems, and its thrifty growing habit leave nothing to be desired. After a year's trial we consider Thomas A. Edison a marvelous dahlia.

Roots 50c

THE WORLD (F.D.) — This wonderful new dahlia was selected at the A. D. S. Show in New York, by Mr. J. D. Sullivan, of the New York World. The coloring is unusual — rich, deep, rosy magenta overlaid garnet with silver shadings on edges of petals. Eight to ten inches across and half as deep.

Roots \$1.00

TREASURE ISLAND (F.D.) (Dahliadel) — One of the brightest Autumn shades we have ever seen. The color is bright apricot with gold and rose suffusion and shadings. Bush growth is strong, branching freely from the ground, giving 4 to 5 foot stems. Flowers are held erect, are medium to large, and retain full centers throughout the season. Good keeper as a cut flower.

Roots \$1.00

VALENTINO (F.D.) (Boston 83) — A dahlia, attractive in formation, which blooms prolifically on good stems and remains true to type throughout the season. The bush is an upright grower. Color, true salmon pink shading to cream at center.

Roots \$1.00

WALDHEIM SUNSHINE (D) (Peacock)—Color, a true deep yellow with darker shading that improves under artificial light. A rich golden suffusion brightens its full high center. Form very attractive, having long, wavy petals. Size extra large. Said by originator to grow 12 inches in diameter. Stems long and sturdy holding flowers facing.

Roots 50c

WATCHUNG WONDER (I.D.) (Smith 88) — A spectacular dahlia of a rich royal red with a touch of gold at the center of flowers, with an occasional yellow petaloid to enhance its beauty. Flowers might be described as being almost on the end of the stem and have unusual keeping qualities, for the back petals can be removed when withered and the centers will open out to perfect blooms.

Roots 50c

WHITE KNIGHT (F.D.) (1932)—This is another fine white of large exhibition size, averaging 9 to 10 inches across and 5½ inches in depth. Plant, medium tall, wide spreading and very prolific of large blooms, which are held upright, on cane like stems. A great prize winner. You will like this dahlia.

Roots \$1.00

WILLIAM H. HOGAN (I.D.) — One of the best fancy dahlias. A prize winner. Color, garnet red, with white tips running down the center of each petal. Every petal comes true to color. Large blooms on rigid stems.

Roots 75c

YORK AND LANCASTER (War of Roses) (F.D.)—An exceptionally fine exhibition or cut flower. The blooms are very large of fine form, held erect on three foot stiff stems. It has splendid keeping qualities when cut. There is nothing to compare with its beauty. Color, a bright crimson, each petal tipped pure white. A good tuber producer.

Roots \$1.00

DAHLIA COLLECTION

I am offering this season special collection made up of one tuber each of my most popular varieties. This gives an opportunity of securing a choice collection at a greatly reduced cost. These collections are carefully balanced as to color, and are made up of large dahlias only. There are twelve guaranteed tubers in each collection, all labelled. We prepay all postage.

These collections are \$5, \$10, \$25 and \$50

I have many more varieties of dahlias that I have not listed as stock is limited.
